

Suprasorb® P sensitive

Silicone foam dressing

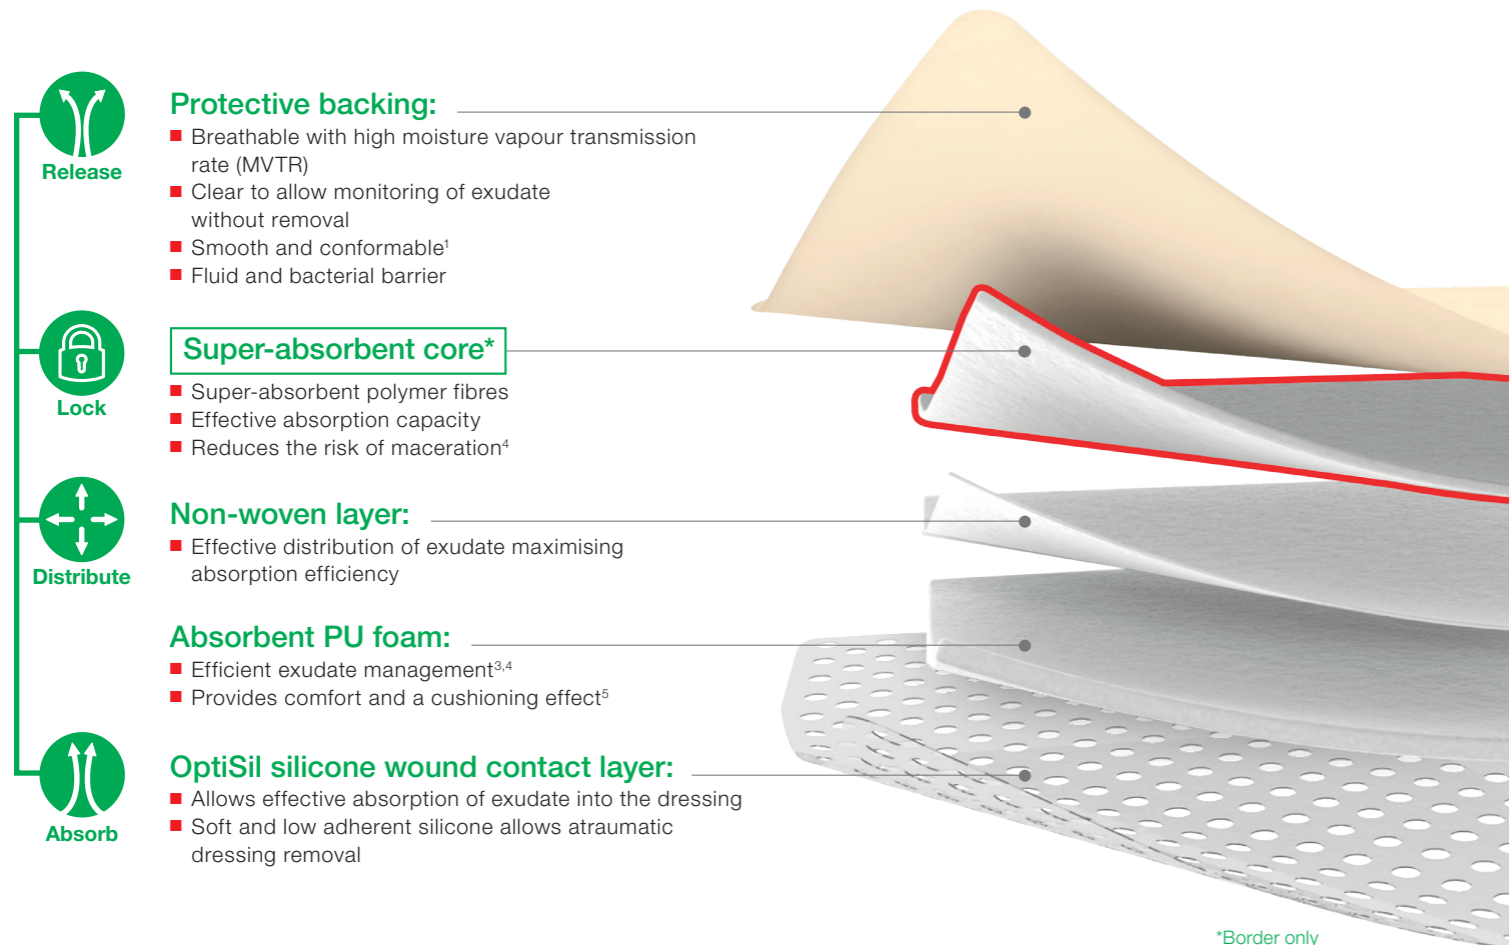

Protective and effective
for low to moderately exuding wounds

Suprasorb® P sensitive is suitable for low to moderately exuding wounds

Suprasorb® P sensitive is soft and gentle for fragile skin with patient benefits built into every layer

Suprasorb® P sensitive advantages

1. Efficient Exudate Management

- High absorbency and effective moisture release vs. market leading brands³
- Promotes efficient absorption of exudate into the dressing with OptiSil Technology wound contact layer¹

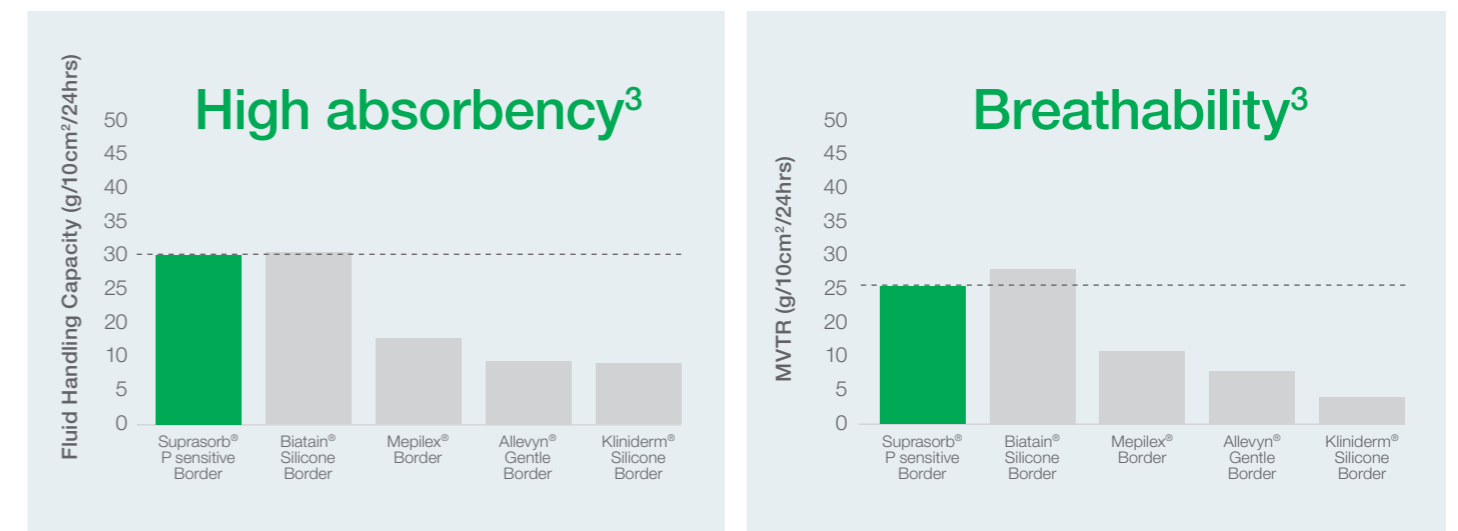

2. Softness & Comfort

- OptiSil technology delivers a kind and gentle absorbent wound care solution without compromising performance⁶
- 2 Layers of cushioning and absorbent PU foam*^{2, 4, 5}
- Atraumatic during dressing changes²

3. Dynamic Protection

- Fluid and bacterial barrier⁷
- Can be worn in the shower promoting increased quality of life and independence⁷
- Independent external backing layer allows the dressing to move with the patient, protecting the wound from lateral shear forces^{4, 9}

Confidence that Suprasorb® P sensitive delivers

Suprasorb® P sensitive summarised

1. Confidence

that your patient's exudate will be absorbed and locked away

2. Atraumatic

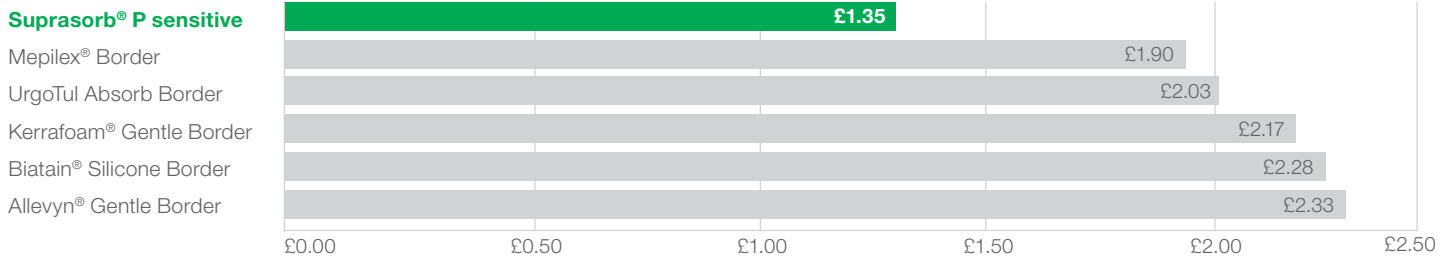

and protects new epithelial cells²

3. Patient comfort

without compromising wound protection^{2,4,5}
